Mark Hutchings puts his D8 through it's paces during the Earthworks Demonstration

An assortment of machines will be in the West for the National Rally at Hamilton in April and the Lake Goldsmith Allis Chalmers Rally on May 6/7. This stopover weekend is an ideal time to give these vintage machines a workout, and an ideal time for visitors to see them in action.

If you have anything larger than a shovel that shifts dirt you will be welcome to put it on show and raise some dust. All makes are welcome, the more the merrier, and your gear can stay over for the 109th Steam Rally and Allis Chalmers show a week later.

ACMOC now have their own shed on the Rally Ground site, and they have a sand pit at their door, so this is something of a shed warming event for them .

Food Catering Vans will be on site.

Exhibitors will be able to camp on the hill

The entry fee will be \$10 for adults and \$5 for juniors over 5

Visitor car parking will be in the car park as usual, and Exhibitors will use the North gate on Cheeseman's Road
